

24th ESVOT Congress

Challenging joint surgery

Palma de Mallorca (E)

12-13 September, 2025

“

Dear Colleagues and Friends,

On behalf of the ESVOT Board and of the organising committee, I would like to welcome you to our congress in Palma de Mallorca. We are excited to host the ESVOT congress in this beautiful city. The venue is located next to the beach and close to Palma, the capital and largest city of the Balearic Islands.

The theme of this single-stream congress is “Challenging Joint Surgery.” We have invited lecturers from different countries to contribute to this cutting-edge program, and I am confident you will enjoy both the scientific expertise and the wonderful city of Palma in mid-September.

The beach, the historic city of Palma, and your veterinary colleagues are waiting for you. Let's get together in Palma!

”

Kind regards,

A stylized, handwritten signature in black ink, appearing to read 'U Reif'.

Ullrich Reif

President of ESVOT

Thank you to all the sponsors and exhibitors
for their generous support given to
the 24th ESVOT Congress

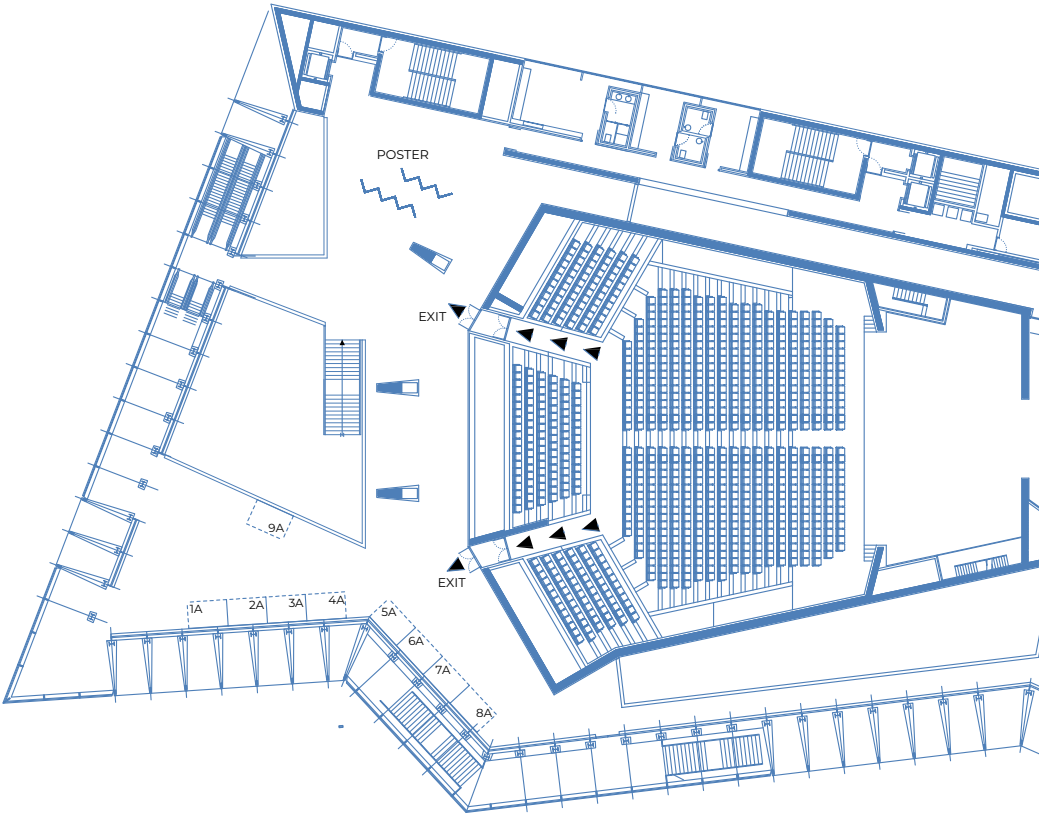

EXHIBITION

Ground Floor

AREA

First Floor

Friday, 12 Sept 2025 - Main program - Challenging joint surgery

07:30	Registration
08:30	Opening Speech of the President
	Chairperson Ullrich Reif
08:40	State of the Art Lecture New Advances in Oral & Maxillofacial Surgery - Sergi Janeiro Barrera
	Chairperson Guillaume Ragetly
09:20	Management of catastrophic failures after TPLO - Luca Vezzoni
09:40	Stifle derangement in cats: can TPLO help? - Sorrel Langley-Hobbs
10:00	Small dog TPLO and internal brace - Laura Cuddy
10:20	Modified TPLO and closing wedge for excessive TPA: a low-risk solution - Peter Boettcher
10:40	Discussion
11:00	Coffee break & Exhibition
11:40	Trochlear groove replacement, 15 years of experience with two systems - Luca Vezzoni
12:00	Unusual and new forms of OCD - Jan Hnizdo
12:20	Free Communication Ex-vivo biomechanical cyclic loading test of a new implant fixation system for intra-articular cranial cruciate ligament repair in canine cadaver models: part II - Anne Copet
12:40	Articular fractures of the stifle - Ullrich Reif
13:00	Discussion
13:10	Lunch break & Exhibition
	Chairperson Pilar Lafuente
14:30	Challenges in surgical treatment of patients affected by polyarthritis - Lisa Piras
14:50	Carpal instabilities- achieving full functional outcomes with modern treatment options - Philipp Schmierer
15:10	Pancarpal arthrodesis using the Castless Orthomed plate - Esteban Pujol
15:30	Clinical experience with patient specific implants for challenging joint pathologies (no OCD) - Peter Boettcher
15:50	Discussion
16:00	Coffee break & Exhibition
	Chairperson Eva Schnabl-Feichter
16:40	Feline tarsal luxation and instability - Pilar Lafuente
17:00	Free Communication Partial tarsal arthrodesis with plate fixation for management of traumatic tarsal injuries in thirty dogs - Henry Todd
17:20	Articular fracture in cats - Guillaume Ragetly
17:40	Challenges in open joint fractures - Lisa Piras
18:00	How I manage bilateral sacroiliac fracture/separations in cats - Andy Moore
18:20	Discussion
18:30	Poster session & Welcome reception

Saturday, 13 Sept 2025 - Main program - Challenging joint surgery

07:30	Registration
	Chairperson Jan Hnizdo
08:30	Total Hip Replacement after femoral head and neck excision - Diane Meiler
08:50	THR in luxoid hips, what can we learn from the human side? - Alexis Bilmont
09:10	Experience with the mini Kyon-THR in cats - Diane Meiler
09:30	Management options for infected THR - Alexis Bilmont
09:50	Free Communication Caudal approach to the canine hip for total hip replacement: a cadaveric study - Thomas Chapman
10:10	Discussion
10:20	Coffee break & Exhibition
	Chairperson Pilar Lafuente
11:00	Temporomandibular joint fractures: what we can learn from human medicine - Rosario Vallefuoco
11:20	Free Communication Feasibility and cartilage injury of an all-inside arthroscopic meniscal repair application in a canine cadaveric study - David Michalik
11:40	Treatment strategies to manage infection in joint arthrodesis - Rosario Vallefuoco
12:00	Discussion
12:30	Lunch break & Exhibition
	Chairperson Ullrich Reif
14:00	Severe positive radio-ulnar incongruity treated with Bi-Oblique Proximal Ulnar Osteotomy - Silvia Boiocchi
14:20	Revision strategies for humeral intracondylar fissure - Andy Moore
14:40	Articular Fractures of the elbow - Esteban Pujol
15:00	Free Communication Biomechanical evaluation of a 3D-printed corrective custom patellar groove implant: a finite element analysis study for treating severe patellar luxation in large breed dogs - Mateusz Pawlik
15:20	Chronic Olecranon Fractures- is arthrodesis or total elbow prosthesis the only option? - Eva Schnabl-Feichter
15:40	Discussion
16:00	Coffee break & Exhibition
16:40	Elbow OCD - conventional treatment or resurfacing - Philipp Schmierer
17:00	Elbow arthrodesis - Laura Cuddy
17:20	Retrospective evaluation of more than 200 cases of UAP - Silvia Boiocchi
17:40	Discussion
18:00	End of the Congress
20:00	Social Dinner at Es Baluard Museum
